SUMMARY

Informatics Engineering student at Dian Nuswantoro University (UDINUS) with a strong focus on Cyber Security and DevOps. Has an active track record in Capture The Flag (CTF) competitions and community web infrastructure management. Skilled in system design, Linux-based server management, and identifying security vulnerabilities in networks and web applications. Backed by a background as an accomplished Taekwondo athlete, I possess a high level of discipline, perseverance, and sharp problem-solving skills to tackle complex technical challenges.

CORE COMPETENCIES

- **Cyber Security:** Capture The Flag (CTF), Web Exploitation, Forensics.
- **DevOps & Cloud Infrastructure:** Cloud Management, Scalable Microservices, Linux (Debian), Docker Containerization, GitHub Actions (CI/CD), Headless Server Deployment.
- **Web & App Development:** HTML, CSS, JavaScript, C++, Tailwind, Laravel, React JS.

TECHNICAL EXPERIENCE

EchoBreak (UNESCO Hackathon Project) | Developer

- Managed the application's cloud infrastructure.
- Developed scalable microservices.
- Ensured seamless data flow across the entire integrated system.
- Live App: echo-brake.vercel.app

Dian Nuswantoro Computer Club (DNCC) | DevOps & Web Administrator

- Responsible for the operation and deployment of the community's official website ("my dncc") to ensure optimal uptime and accessibility for members.
- Implemented fundamental DevOps practices by utilizing Linux environments and containerization to improve system efficiency.

ACHIEVEMENTS & COMPETITIONS

- **Finalist - Wreck IT 7.0 (Politeknik Siber dan Sandi Negara / Poltek SSN):** Demonstrated advanced analytical and system penetration skills in a prestigious national-level Cyber Security competition.
- **Active CTF Competitor:** Has an active track record of solving complex Web Exploitation and Forensics challenges.

CERTIFICATIONS

- **Basic Cybersecurity** - JagoanSiber by CODEPOLITAN (June 9, 2026)
- **Webinar Series #129: Linux for Cyber Security** - Dunia Coding (June 3, 2026)
- **Basic Training For Next Generation (Networking Division)** - Dian Nuswantoro Computer Club (October 2025)

EDUCATION

Courses in Natural Science Program

SMAN 1 AMBARAWA
2022-2025

Bachelor of Informatics Engineering (Ongoing)

DIAN NUSWANTORO UNIVERSITY (Udinus)
2025 - Present
