SUMMARY

Hiii! I'm **Kamal**, I am Computer Science Student at Dian Nuswantoro University (Udinus) and a skilled Frontend Developer. I have experience in Event Organizing, which strengthened my management and communication skills, and I am also a former Taekwondo athlete, which taught me discipline, perseverance, and resilience. The combination of technical expertise, organizational experience, and sportsmanship makes me adaptable, focused, and ready to take on new challenges.

EXPERIENCE

Diponegoro Cup IV Military Commander Committee(Data Entry Staff) **May 31 - June 1, 2025**

- Entered winners' data into the official competition software quickly and accurately.
- Ensured precision and consistency of match results to guarantee reliable reporting.
- Collaborated with judges and technical committees to streamline administrative processes.
- Contributed to the successful execution of a national-level sports event by prioritizing professionalism and responsibility.

Committee of the PON Polri Kapolri Cup 6(Off-Court Coordinator) **July 25 - 27, 2025**

- Served as coordinator responsible for managing athletes before entering the competition area to ensure smooth scheduling and match flow.
- Collaborated with officials, referees, and staff to organize athlete entry according to their turn.
- Maintained discipline, order, and safety in the off-court area.
- Contributed to the successful execution of a national-level sports event through leadership, effective communication, and strong responsibility.

Mobile Application Development(SIGAP.ID) **August 2025 – Present**

- Developing SIGAP.ID, a mobile application designed to help users report emergency incidents quickly and accurately.
- Focused on creating a simple, responsive, and user-friendly frontend interface.
- The project is still under development, with key contributions in UI design and initial reporting feature integration.
